

SCROLL BAR FABRIC PROTECTORS

JUNE A. ABEL, 383 PROSPECT RD., BEREA, OHIO 44017

REMARKS: The applicant has amended the claims portion of invention to further define the Needlework Accessory's uniqueness to the art of sewing. There is currently no other product available to meet the needs of sewers to protect their needlework from damage, soil or wear from repeated use while maintaining their needlework on a scroll bar or like bars. This needlework accessory has been presented to several sewing seminars nationally with great results to further anticipate the patentability and marketability of this sewing accessory. The applicant thanks you for your assistance and suggestions and will make any necessary adjustments if further advised.
